[Despatch Abstract.]

Electricity - Pykara Electricity System - South Kanara District - Area served by Udipi Diesel Station - Exemption from restrictions - Ordered.

GOVERNMENT ELECTRICITY DEPARTMENT.

From

Sri V.P. Appadurai, B.A., M.I.E(Ind).,
Chief Engineer for Electricity,
157, Mount Road, Madras. 2.

To

The Secretary to Government,
Public Works Department,
Madras.

Letter No. 966 J/56-1 dated 13-3-56.

Sir,

SUB: Udipi Power House--Acute shortage of power--staggering of holidays and peak load restrictions on L.T. power loads--Imposition--approval.

::::

The Superintending Engineer, Pykara Electricity System has stated that the maximum demand on the Udipi Power House has gone very high (maximum peak reached being 442 K.W. at 0.87 P.F. during evening hours and 234 K.W. at 0.6 P.F. during morning hours) and that this has necessitated the two new sets being run in parallel during day time also. He has imposed staggering of holidays and evening peak-load hours restrictions on all L.T. industrial loads fed off Udipi Power House in anticipation of approval of Government, due to acute shortage of power in this area. By this arrangement it would be possible to permit connecting up new loads in the area and carry out proper maintenance work on the sets at Udipi Power House by alternately paralleling the old set with one of the new sets during day time. He has authorised the Assistant Engineer, Operation, Udipi to impose the peak load hour restrictions between 6 P.M. to 11 P.M. daily and staggering of weekly holidays on L.T. consumers served by the Udipi thermal station.

2/ The industrial L.T. consumers served by the power house have been notified by the Assistant Engineer about the staggering of holidays and peakload hour restrictions. I request approval of Government to the scheme of restrictions proposed in para 1 above and also request that the action of the Superintending Engineer, Pykara Electricity System in having given effect to the restrictions referred to in Udipi area in anticipation of approval of Government may be ratified. Formal notification with reference to delegation of power under G.O.No.4112 Public Works dated 11-10-51 will be issued by the Superintending Engineer, Pykara Electricity System on approval of Government to the imposition of the restrictions referred to above.

Copy to (T)

for Chief Engineer for Electricity.

P.W.D.(E-2).

G.O.Ms.No. 1821 P.W dt. 17.4.56

Sub: Elecy. - Pykara Elecy. System - South Kanara Dt - Area served by Udipi Thermal Station - Imposition of restrictions - Ordered.

Ref: From the C.E.(E) Lr.No. 966 J/56-1 dated 16-3-56.

In order to tide over the prevailing acute shortage of power in the area fed by the Udipi Thermal Station, South Kanara Dt., Pykara Elecy. System, the Govt. direct that restrictions be imposed on supply of power during the evening peak load hours from 6 P.M. to 11 P.M. daily and the weekly hoildays of low tension industrial consumers served by the Udipi Thermal Station be staggered.

2. The action of the S.E. Pykara Elecy. System in having given effect to the above restrictions in anticipation of approval of the Govt. is ratified.

3. The S.E. Pykara Elecy. System should issue appropriate notification in respect of the restrictions approved in para 1 above under the powers delegated to him in G.O.Ms.No. 4112 P.W. dt. 11-10-51 and cause it to be published in the Fort. Saint George Gazette as soon as the Madras Essential Articles Control and Requisitioning (Temporary Powers) Re-enacting Bill, 1956 becomes law.

P.W.D.(E 2)

Sub: Elecy. Deptt. - Pykara Elecy. System - Udipi Power House - Acute shortage of power - Staggering of holidays and peak-load restrictions on L.T. Power loads - Imposition.

Ref: From the C.E.(E) Lr.No.966 J/56-1, dt.16-3-56.

The file relates to the imposition of certain restrictions on the L.T. consumers served by the Udipi Thermal Station in South Kanara Dt.

2.The C.E.(E) has stated that the maximum demand on the Udipi Power House has gone very high and that this has necessitated the two new sets being run in parallel during day time. In order to tide over the situation, the S.E., Pykara Elecy.System has authorised the A.E., Operation Udipi to impose restrictions during the evening peak load hours from 6 P.M. to 11 P.M. daily and staggering of weekly holidays on L.T. industrial consumers served by the Udipi Thermal Station. The C.E. has also stated that the consumers in the area were notified by the A.E. about the imposition of the above restrictions. It is reported that by this arrangement it would be possible to permit connecting up of new loads in the area and carry out proper maintenance work on the sets at the Udipi Power House by alternately paralleling the old set with one of the new sets during day time. The C.E.(E) has now requested approval of Govt. to the above scheme of restrictions and ratification of the action of the S.E., Pykara Elecy. System in having given effect to the restrictions in anticipation of the approval of Govt. He has stated that notification with reference to the delegation of powers under G.O.Ms.No.4112, P.W., dt. 11-10-51 will be issued by the S.E., Pykara System after approval of Govt. to the imposition of above restrictions.

3.It may be mentioned that the restriction of keeping of L.T. power loads during the evening peak load period between 18 and 22 hours is already in force in the Hydro Electric and Madras Systems and in view

of the low water storages in the hydel reservoirs, it is proposed to tighten the restriction from 1-4-56. In the circumstaces, the proposal of the C.E.(E) at R on p.1 above may be agreed to. It is submitted that a statutory notification imposing the restrictions can be published in the Fort Saint George Gazette only when the Madras Essential Articles (Control (Tension Power)) Re-enacting Bill, 1956 becomes law.

4. A draft order is submitted. I.L.C. may see.

NOTE FOR CIRCULATION

The file relates to the imposition of certain restrictions on the L.T.consumers served by the Udipi Thermal Station in South Kanara District.

2. The Chief Engineer (Electricity) has stated that the maximum demand on the Udipi Power House has gone very high and that this has necessitated the two new sets being run in parallel during day time. In order to tide over the situation, the Superintending Engineer, Pykara Electricity System has authorised the Assistant Engineer, Operation Udipi to impose restrictions during the evening peak load hours from 6 P.M. to 11 P.M. daily and staggering of weekly holidays on L.T.industrial consumers served by the Udipi Thermal Station. The Chief Engineer has also stated that the consumers in the area were notified by the Assistant Engineer about the imposition of the above restrictions. It is reported that by this arrangement it would be possible to permit connecting up of new loads in the area and carry out proper maintenance work on the sets at the Udipi Power House by alternately parallelling the old set with one of the new sets during day time. The Chief Engineer (Electricity) has now requested approval of Government to the above scheme of restrictions and ratification of the action of the Superintending Engineer, Pykara Electricity System in having given effect to the restrictions in anticipation of the approval of Government. He has stated that notification with reference to the delegation of powers under G.O.Ms.No.4112, Public Works, dated 1-10-51 will be issued by the Superintending Engineer, Pykara System after approval of Government to the imposition of above restrictions.

3. It may be mentioned that the restriction of keeping of L.T. power loads during the evening peak

16969/56

load period between 18 and 22 hours is already in force in the Hydro Electric and Madras Systems and in view of the low water storages in the hydel reservoirs, it is proposed to tighten the restriction from 1-4-56. In the circumstances, this department proposed to approve the proposal of the Chief Engineer (Electricity) at S on p. 3 ante. Industries, Labour and Co-operation Department have perused the case.
